

The Reusable Solution for FIFO Rotation

New!

Set your foodservice operation up for success with Endure Food Identification Labels. Affix one of these reusable labels on any polycarbonate container or food pan, and it will remain in place through multiple washes in a commercial dishwasher. Markings made with a grease pencil or wax marker will wash off in the dishwasher, leaving the label blank for another use.

- ✓ Labels withstand 300 washes.
- ✓ Supports food safety and proper FIFO rotation.
- ✓ Convenient dispenser packaging.
